Handles
that shape
architecture

formehandles.com

Forme is the brand consisting of three distinct product lines to meet different lifestyle needs. Contemporary is the product line that follows the latest trends of contemporary architecture by reinterpreting them through new languages and shapes. We pride ourselves on being at the forefront, changing perspective, and experimenting.

Il marchio Forme è declinato in 3 linee distinte per rispondere alle diverse esigenze dell'abitare. Contemporary è la linea che segue i nuovi trend dell'architettura contemporanea reinterpretandoli attraverso linguaggi e forme inedite. Anticipando i tempi, cambiando prospettiva, sperimentando.

Forever evolving,
since 1952.

Forme was born as the flagship brand of Frosio Bortolo, a company of excellence with over 70 years of history in the handle industry. A family business that has maintained its cutting-edge position through integrating its production into a new design dimension.

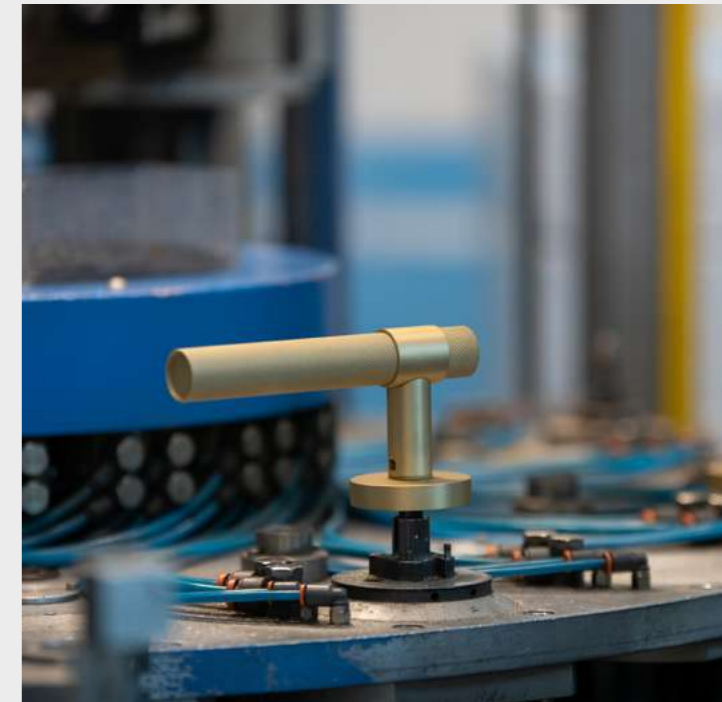

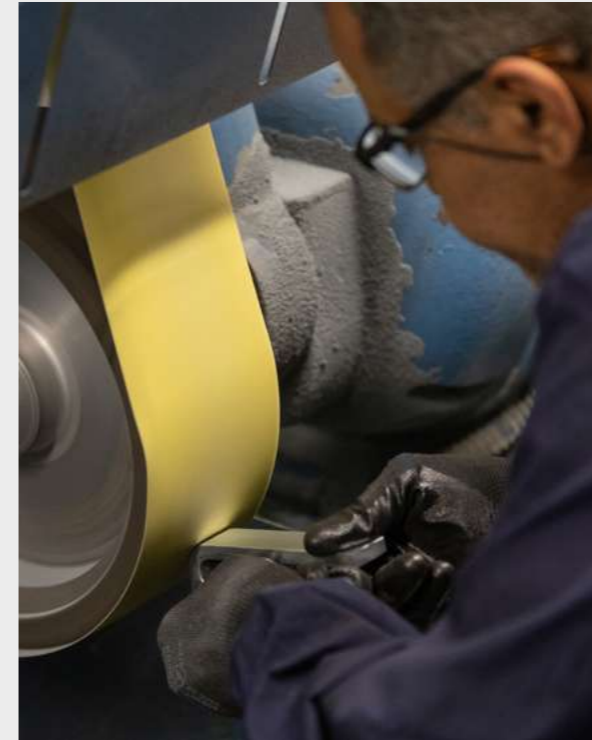

*Dal 1952,
nel segno dell'evoluzione.*

Forme nasce come brand di punta di Frosio Bortolo, azienda di eccellenza nel settore della maniglieria con oltre 70 anni di storia. Una tradizione di famiglia che ha saputo guardare al futuro integrando la sua impronta produttiva in una nuova dimensione progettuale all'avanguardia.

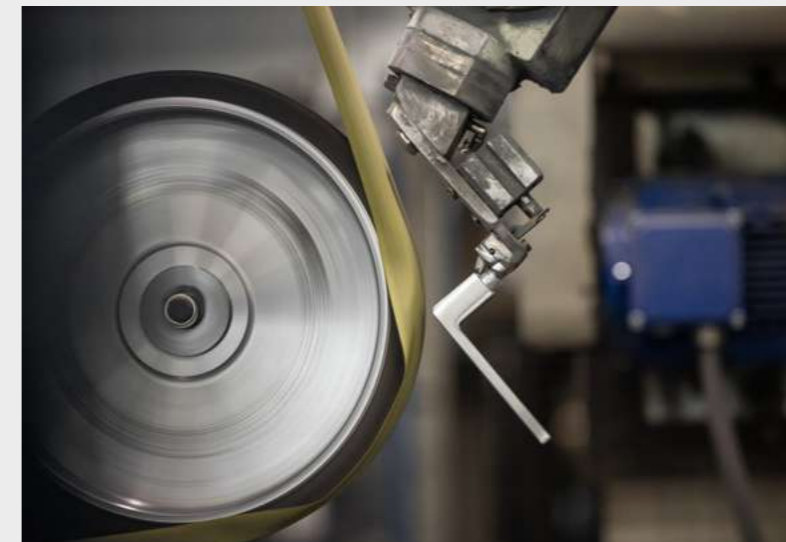

**A legacy of knowledge,
skills, and passion.**

Thanks to its manufacturing heritage and valuable technical know-how, Forme continues to extend its production by investing in new technologies, cutting-edge machinery and valuable partnerships. We equip ourselves not just with tools, but ideas, to better interpret future trends and anticipate the needs of an increasingly sophisticated clientele.

*Un'eredità di sapere,
competenze e passione.*

Grazie all'anima produttiva e al prezioso know-how tecnico ereditati, Forme continua ad estendere la sua produzione investendo in nuove tecnologie, macchinari all'avanguardia e partnership di valore. Idee e strumenti per interpretare al meglio i trend del futuro e anticipare le esigenze di una clientela sempre più sofisticata.

Always looking forward.

Today, Forme stands as a strong and independent brand, with a renewed strategy and brand identity focused on contemporary architecture and the challenges of global markets. Tradition and innovation blend seamlessly to create a design in constant evolution.

Collaborations with designers from around the world, alongside prestigious design awards, reflect the identity of a brand always looking towards the future.

*Una visione da sempre
proiettata al futuro.*

Oggi, Forme è un brand consolidato e indipendente con una rinnovata strategia e immagine di marca, orientate all'architettura contemporanea e alle sfide dei mercati globali. Tradizione e innovazione che si coniugano per dare vita a un design in continua evoluzione. Collaborazioni con designer di tutto il mondo, unite a prestigiosi riconoscimenti di design, raccontano l'identità di un brand sempre proiettato al futuro.

A logo with a secret.

Inside the lettering of the new Forme logo there is a hidden handle, created by lowering the vertical shaft of the letter “f” and detaching it from the horizontal one.

An almost secret detail, it’s a symbol that represents the idea of a discreet, exclusive design, which is revealed little by little. Attentive to what it displays as well as what it hides.

forme

“ The logo is the first building block of change.

We wanted to tie ourselves to the past with the use of a lighter lower case lettering, but also firmly distinguish the new path of the brand, with additional details and added personality. ”

OSMO

Un logo da scoprire.

All'interno del lettering del nuovo logo Forme è presente una maniglia nascosta, creata abbassando l'asta verticale della lettera “f” e staccandola da quella orizzontale.

Un dettaglio quasi segreto, un simbolo che rappresenta l'idea di un design discreto, esclusivo, che si svela poco a poco, attento a ciò che mostra così come a ciò che nasconde.

“Il logo è il primo mattoncino del cambiamento. Volevamo legarci al passato con l'utilizzo di un lettering minuscolo più leggero ma con l'aggiunta di un dettaglio che conferisce personalità e contraddistingue il nuovo percorso del brand.” OSMO

All aspects of our DNA.

01. Endless Research.

Someone once said talent is 1% inspiration and 99% sweat. The sweat of those who study, develop, experiment with and love research in its purest form. It is what unites knowledge, seeks to always find meaning and create beauty through nourishing ideas.

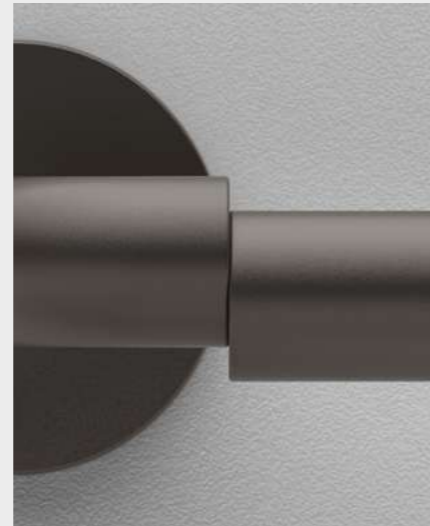

01. Ricerca infinita.

Come diceva qualcuno, il talento è 1% ispirazione e 99% sudore. Il sudore di chi studia, approfondisce, sperimenta e ama la ricerca nella sua veste più pura. Quella che unisce i saperi, che indaga il senso delle cose, che si nutre di bellezza.

02. The courage of ideas.

To innovate means to dare. Not just tolerating risk but celebrating it - investing time and resources into an idea and walking unexplored paths without knowing the destination. We believe in the curiosity to discover, day by day, what lies beyond the horizon.

02. Il coraggio delle idee.

Innovare significa osare. Accettare un rischio. Investire tempo e risorse in un'idea e percorrere sentieri inesplorati senza conoscere la destinazione. La curiosità di scoprire, giorno per giorno, cosa c'è dietro l'orizzonte.

03. Achieving true quality.

We are Italians who have been making handles entirely within Italy for 70 years. But this is not enough to guarantee the quality of a product. True quality comes through a way of being, thinking and acting. It is worth more than any certification or length of history.

03. La qualità non basta.

Siamo italiani, realizziamo maniglie da 70 anni e la produzione è interamente made in Italy. Ma questo non basta per garantire la qualità di un prodotto. Perché la vera qualità è un modo di essere, pensare, agire, e vale più di qualsiasi certificazione.

04. Ongoing experimentation.

Try, make mistakes, improve and try again. The success of a project arises from a process of continuous experimentation where the error is part of the journey. A wrong step can sometimes put you on the right course to create something truly unique.

04. Sperimentazione continua.

Provare, sbagliare, migliorare e riprovare. Il successo di un progetto nasce da un processo di sperimentazione continua dove l'errore fa parte del gioco. Una strada sbagliata può essere a volte la giusta rotta per creare davvero qualcosa di unico.

05. Lateral thinking.

Nothing is created and nothing is destroyed. But everything is transformed, as long as you change your point of view. In a world where everything has already been seen and experienced, it is our unprecedented perspective that really can make the difference.

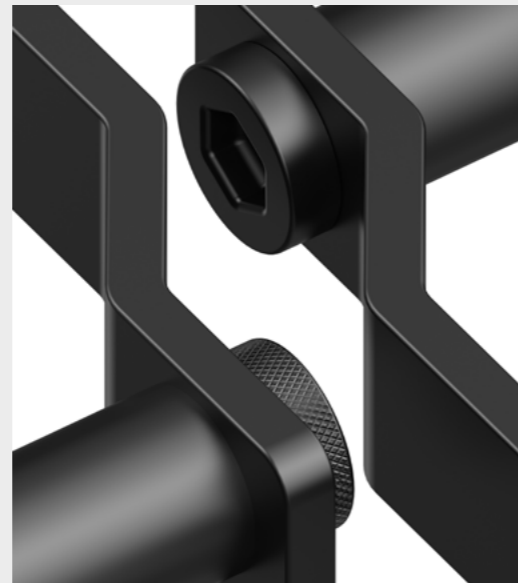

05. Pensare laterale.

Nulla si crea e nulla si distrugge ma tutto si trasforma: a patto di cambiare punto di vista. In un mondo dove tutto è stato già fatto, visto, masticato, è il nostro sguardo personale e la nostra inedita prospettiva a fare davvero la differenza.

06. Return to design.

Today that the word design has almost lost its meaning, we find its essence by returning to its roots. In the collaboration with designers of different cultures and visions, in the continuous contamination, in the fusion of experiences.

06. Ritorno al design.

Oggi che la parola design ha quasi perso di significato, ne ritroviamo il senso tornando alla sua radice. Nella collaborazione con designer di culture e visioni diverse, nella contaminazione continua, nella fusione di esperienze.

07. Sustainable action.

We believe in a sustainable future and that comes through committed action, day after day. Doing, not just being. We are lucky enough to work in a valley surrounded by greenery and we know how important it is to safeguard the beautiful planet that hosts us.

07. Fare sostenibile.

Crediamo in un futuro sostenibile che diventa azione concreta, giorno dopo giorno. Fare, più di essere. Abbiamo la fortuna di lavorare in una valle immersa nel verde e sappiamo quanto sia bello e importante salvaguardare il pianeta che ci ospita.

Choosing the ideal finish.

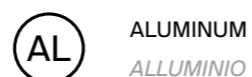

Forme handles are crafted in brass and zamak – an alloy composed of zinc, aluminium, magnesium and copper – and in aluminium. In addition to traditional finishes and special materials, eco-friendly finishes are also available, designed to add sustainable value to your projects and encourage an increasingly green production.

All handles are presented in the catalogue in at least four finishes, chosen ad hoc. Finishes on request are available for large quantities across all product families in the line.

Scegli la finitura ideale.

Le maniglie Forme sono realizzate in ottone, zama – una lega composta da zinco, alluminio, magnesio e rame – e in alluminio. Oltre alle finiture tradizionali e ai materiali speciali, sono disponibili delle finiture ecologiche pensate per conferire un valore sostenibile ai tuoi progetti e favorire una produzione sempre più green.

Tutte le maniglie sono presentate a catalogo in almeno 4 finiture scelte ad hoc. Finiture su richiesta sono disponibili per grandi quantitativi per tutte le famiglie di prodotti della linea.

Our special materials are only applied to some product families of this line. They are not available across all families.

I nostri materiali speciali sono applicabili esclusivamente ad alcune famiglie di prodotto della linea e non sono disponibili per tutte le famiglie.

Rosettes.

Our wide range of rosettes are suitable for any need; from the more basic round and square to the most sought after designs, with a reduced thickness that almost sinks into the door.

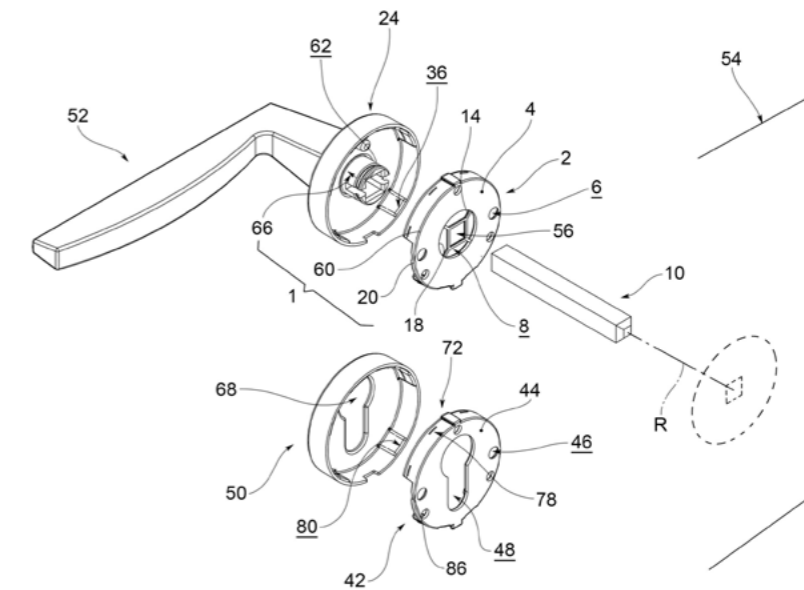

Rosette.

La nostra gamma di rosette offre un'ampia scelta adatta a qualsiasi esigenza; dalle più ordinarie tonda e quadra alle più ricercate dallo spessore ridotto che arriva quasi a scomparire nella porta.

Fixa system.

Free of plastic parts and made entirely of metal, our new rosette mounting mechanism guarantees faster installation times, greater positioning accuracy and greater sealant performance over time.

This is thanks to particular mechanical devices, such as pressure locking, which makes the installation process quick and easy; the self-centering system of the panel, which guarantees the correct positioning of the rosette during assembly; and the presence of guide grooves, which ensure the stability and immovability of the rosette once installed.

Sistema Fixa.

Completamente in metallo e privo di parti in plastica, il nostro nuovo meccanismo di montaggio delle rosette, garantisce tempi d'installazione più rapidi, maggiore precisione nel posizionamento e maggior tenuta nel tempo.

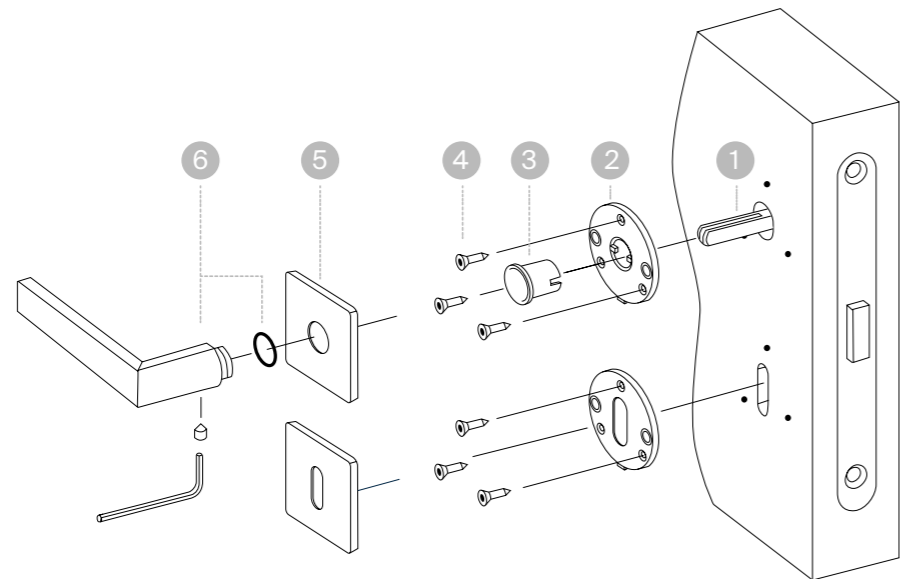

Tutto questo grazie a particolari accorgimenti meccanici, quali il bloccaggio a pressione, che rende rapido e veloce lo svolgimento del lavoro; il sistema auto-centrante del quadro, che garantisce il corretto posizionamento della rosetta in fase di montaggio; la presenza di scanalature guida, che assicurano la stabilità e inamovibilità della rosetta una volta installata.

Slim system.

At just 5 mm thick, half the depth of a standard rosette, Slim redefines the proportions of the handle, lending the overall assembly a more contemporary aesthetic and a sleeker, more refined silhouette. A considered design detail that makes a visible difference to the overall look of the handle, without any compromise on functionality.

Available in both round and square versions, Slim adapts with versatility to a wide range of aesthetic preferences and installation contexts.

Sistema Slim.

Con soli 5 mm di spessore, la metà rispetto a una rosetta standard, Slim ridefinisce le proporzioni della maniglia conferendo all'insieme un'estetica più contemporanea e una linea più sottile ed elegante. Un dettaglio progettuale che fa la differenza nell'aspetto finale della maniglia, senza compromettere la funzionalità.

Disponibile sia in versione tonda che quadra, Slim si adatta con versatilità alle diverse esigenze estetiche e ai molteplici contesti d'installazione.

Minimal Plus rosette.

Minimal Plus elevates the minimal rosette to a new standard.

Featuring a built-in spring, it is the only minimal-style rosette capable of delivering a smooth, controlled and consistently responsive return motion, without losing tension over time.

Slim and discreet, it almost disappears into the door, yet inside it reveals an innovative core that ensures a solid, high-quality feel with every touch.

Designed for long-lasting performance, Minimal Plus maintains its elasticity even after extended use, preserving the elegance and precision of the movement.

Its quick and intuitive installation streamlines assembly and enhances efficiency.

Rosetta Minimal Plus.

Minimal Plus porta la rosetta minimal a un livello superiore. Grazie alla molla integrata, è l'unica rosetta dal design essenziale capace di garantire un movimento di ritorno fluido, controllato e sempre reattivo, senza cedimenti nel tempo.

Sottile e discreta, quasi scompare sulla porta, ma al suo interno racchiude un cuore altamente innovativo che assicura una sensazione solida e di qualità a ogni utilizzo.

Progettata per offrire prestazioni durature, Minimal Plus mantiene la sua elasticità anche dopo un uso prolungato, preservando l'eleganza e la precisione del gesto.

L'installazione rapida e intuitiva ottimizza il montaggio e migliora l'efficienza.

Designers.

Our name is the expression of a brand that is always looking for new, contemporary forms to represent a constantly-evolving approach to design. To achieve this we collaborate with a selection of designers and design studios, both in Italy and around the world. A diversity of nationalities, sensibilities, cultures and visions help to reimagine all the forms that a handle can take.

Sergio Mori

Mori has made versatility his strength: interiors, taps, lamps, stools, fashion and accessories, all the way up to the “ME scooter”. He has won the 18th Compasso d’Oro ADI and other prestigious awards, has collaborated with designers of the caliber of Fabrizio Bertero, and has taught design at the LABA in Brescia and at the IED in Milan. His unshakable motive is a hunger for information: because only new knowledge allows us to reach new horizons.

Mori ha fatto della versatilità il suo punto di forza: interni, rubinetteria, sanitari, lampade, sgabelli, moda e accessori, fino allo “scooter ME”. Ha vinto il 18° Compasso d’Oro ADI e altri premi prestigiosi, ha collaborato con designer del calibro di Fabrizio Bertero e ha insegnato design alla LABA di Brescia e allo IED di Milano. Il suo mantra è la fame di informazioni: perché solo le nuove conoscenze ci permettono di raggiungere nuovi orizzonti.

OSMO

OSMO is a multidisciplinary team of designers who work on brand, product and experience design projects by questioning the status quo and building value and cultural relationships. The desire to explore new perspectives is the basis of the research that guides every Osmo project. “A sculptural handle
where lines branch out
like a gesture.”

Flow

design by OSMO

Flow draws on nature to shape a fluid, organic form. A sculptural handle where lines branch out like a gesture, soft and continuous. A new idea of dynamic elegance.

Flow si ispira alla natura per definire una forma fluida e organica. Una maniglia scultorea, dove le linee si diramano come un gesto, morbide e continue. Un'idea nuova di eleganza dinamica.

Newnormal

design by OSMO

Newnormal redefines the square handle archetype. A new normal, a soft shape within a square. Squared yet never quite, familiar yet entirely new.

*Newnormal ridefinisce l'archetipo della maniglia quadrata.
Una nuova normalità, una forma morbida inscritta nel quadrato.
Squadrata ma mai del tutto, familiare ma completamente nuova.*

Andromeda

design by Francesca Ciani

Ridges and waves elevate elegance, offering a unique and refined tactile experience. A timeless design that seamlessly blends with both classic and contemporary interiors.

Rilievi e onde elevano l'eleganza, offrendo un'esperienza tattile unica e raffinata. Un design senza tempo che si integra in ogni stile d'interni, dal classico al contemporaneo.

“Ridges and waves
elevate elegance.”

Gas

design by OSMO

Gas is the contemporary reinterpretation of the common industrial flat lever handle, historically created through bending sheet metal. It is from these origins that the Gas handle is generated.

Gas è la rivisitazione in chiave contemporanea della comune maniglia a leva piatta industriale ottenuta attraverso la piegatura della lamiera. È proprio da queste pieghe che si genera l'impugnatura di Gas.

Shinobi

design by OSMO

For Shinobi, one cut perfectly splits the iconic shape of the handle, creating an evocative, reimagined design. Two suspended elements that harmonise and impress.

In Shinobi un taglio rompe idealmente la forma iconica della maniglia creando un nuovo equilibrio di grande forza evocativa. Due elementi sospesi che si ritrovano in perfetta armonia.

“Slicing through the traditional handle, creating an entirely new shape.”

Round

design by Forme

Smooth edges and seamless harmony shape a handle where pure geometry meets gentle curvature. A touch of refined softness for contemporary spaces, elevating form with quiet elegance.

Profili morbidi e un'armonia senza interruzioni modellano una maniglia in cui la geometria pura incontra la delicatezza delle curve. Un tocco di raffinata morbidezza per gli spazi contemporanei, capace di elevare la forma con sobria eleganza.

Asti

design by Forme

An iconic handle, very simple yet disruptive in its elegance. Asti represents purity and simplicity due to its light lines with rounded corners. Ideal in any contemporary context.

Una maniglia iconica, semplicissima eppure dirompente nella sua eleganza. Asti è un'opera d'arte di purezza ed essenzialità grazie alle sue linee leggere dagli angoli smussati. Ideale in qualsiasi contesto contemporaneo.

“Pure simplicity to conquer any contemporary habitat.”

Alila

design by Forme

Alila reinterprets a design from the past in a contemporary style. The graphic motif is pure conceptual expression. Architecture and inspiration define this piece.

Estro e architettura sono le parole chiave di una maniglia che reinterpreta in chiave contemporanea un design del passato. In Alila, il motivo grafico è pura espressività concettuale.

“On the path
to a new tactile
experience.”

Idea

design by Forme

Twisting the Idea allows light to dance beautifully from its surface.
A dynamic shape without compromise.

L'idea è quella di una torsione della maniglia per creare inediti rimbalzi di luce. Il dinamismo delle forme trova qui la sua massima applicazione, senza compromessi.

Horus

design by Francesca Ciani

Like a horizontal blade, Horus cuts through the environment with its symmetrical design. The height of elegance in a handle that optimises every centimetre of the product to the maximum.

Come una lama orizzontale, Horus taglia l'ambiente con il suo design simmetrico ed essenziale. Il top dell'eleganza in una maniglia che ottimizza al massimo ogni centimetro di prodotto.

Alba

design by Forme

For Alba the front inclination creates two separate reflections of light that give the design a defined and elegant style. Like the beginning of a new day, or the dawn of a new era.

In Alba l'inclinazione frontale crea due diversi rimbalzi di luce che donano al design uno stile definito ed elegante. Come l'inizio di un nuovo giorno, l'alba di una nuova era.

Soho

design by Alessandro Elli

A round structure with a soft flow, creating a droplet shape at the finish. Soho is a highly refined handle with a classic concept evolved into a new generation style.

Una struttura tonda che scorre leggera creando sul finale la forma di una goccia. Soho è una maniglia di grande raffinatezza con un concept classico che evolve in uno stile di nuova generazione.

Luck

design by Forme

Cylindrical shapes intersect, creating a structure of unprecedented fluidity. Luck's personality also comes through the horizontal knurling of the handle, evoking a certain timeless beauty.

Forme cilindriche si intersecano nello spazio creando volumi dalle inedite assonanze. La caratteristica di Luck è inoltre la godronatura orizzontale dell'impugnatura in grado di evocare una bellezza senza tempo.

“Conceptual richness and the cylinder as a stylistic signature.”

City

design by Forme

The roundness of the cylinder is embellished by refined knurling, available in cross lattice or horizontal textures. City is a simple handle with a new flourish that emphasises its design.

La rotondità del cilindro è impreziosita da ricercate godronature, disponibili in trame incrociate o orizzontali. City è una maniglia essenziale con un twist inedito che ne sottolinea l'impugnatura.

Viva

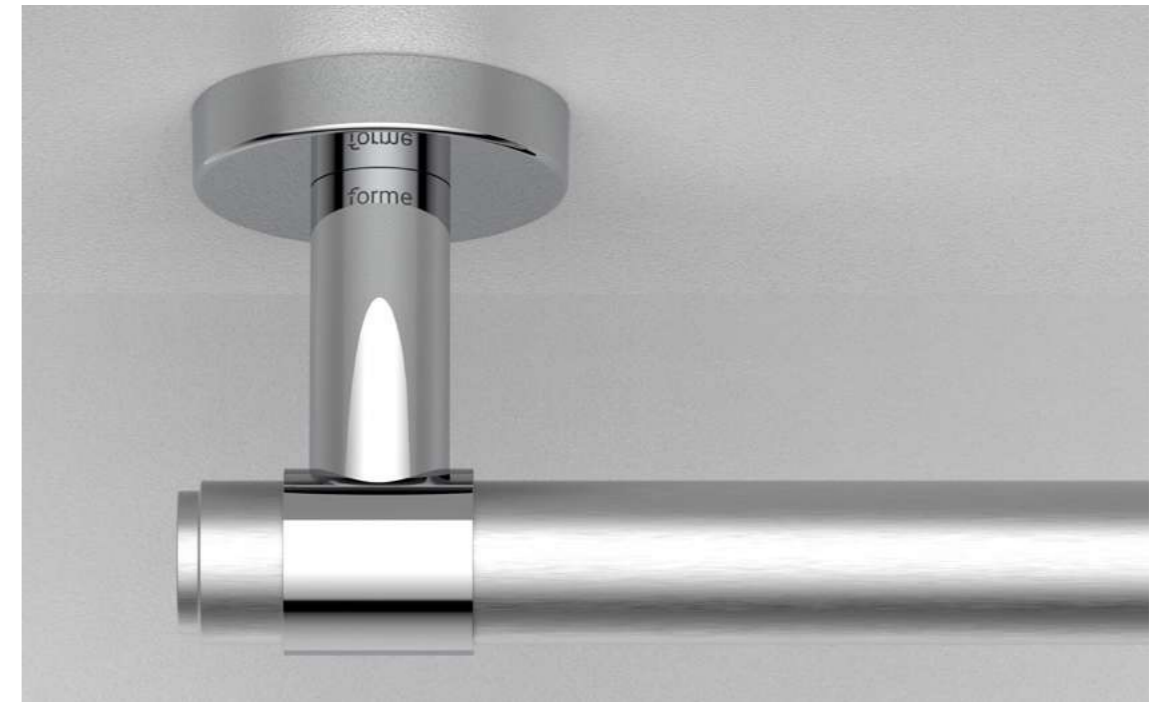

design by Forme

One element passes into the other in a symbiosis that emphasises the change in finish of the cylinder, between chrome and satin.

Viva is a contrasting element which gives a touch of glamour to any environment.

Un elemento passa dentro l'altro in una simbiosi che enfatizza il cambio di finitura del cilindro, tra cromatura e satinatura. Viva è puro contrasto per dare un tocco glamour a ogni ambiente.

“Chrome plating and satin finishing in a symbiosis of great vitality.”

Alya

design by Forme

For Alya two elements of the handle intersect, with each maintaining its own identity. The special knurling accentuates the detachment and enriches the handle.

In Alya due elementi della maniglia si intersecano mantenendo ognuno la sua identità. La godronatura speciale accentua il distacco arricchendone l'impugnatura.

Infinity

design by Francesca Ciani

Infinity covers the rosette with a solid cylinder while the handle slides gracefully with a sinuous movement. Like a note on an original score, on the wings of infinity.

Come una nota sullo spartito dell'originalità. Infinity copre la rosetta con un cilindro pieno mentre l'impugnatura scorre leggiadra con un movimento sinuoso, sulle ali dell'infinito.

Penta

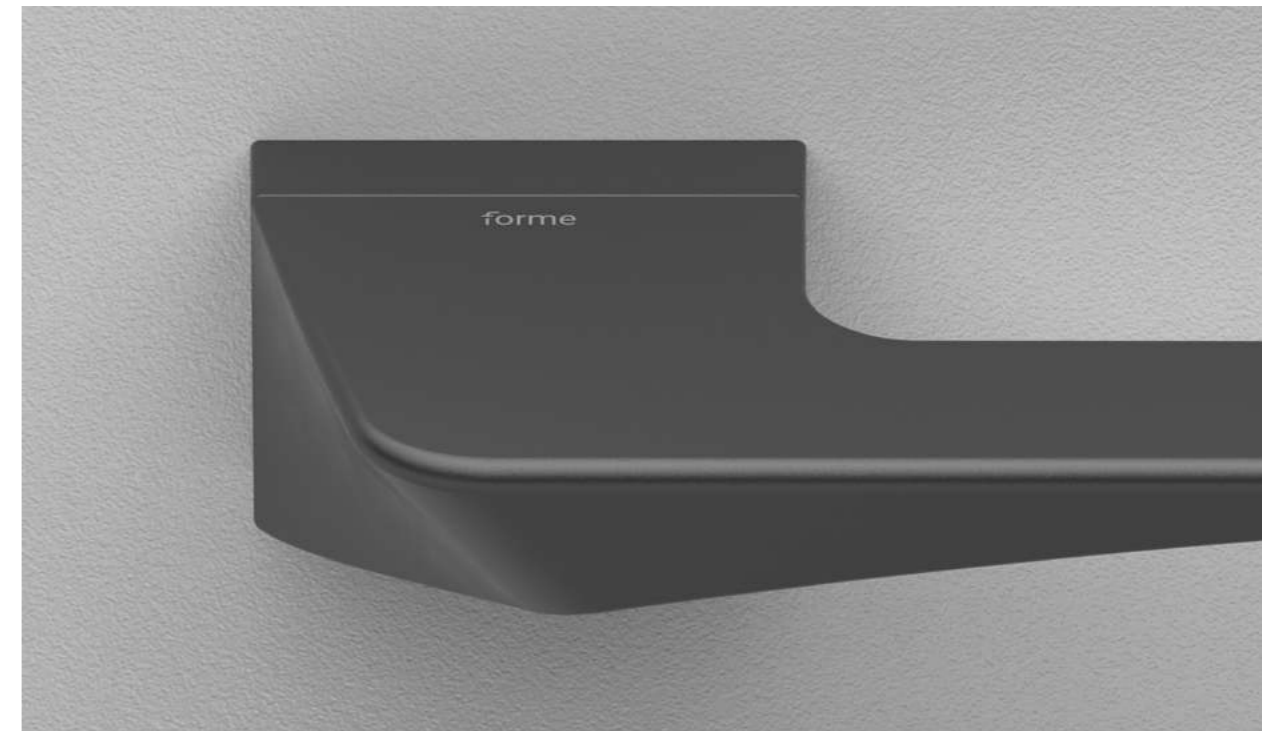

design by Francesca Ciani

For Penta the rosette disappears to create a flat and sinuous surface with a high visual impact. Mitre cuts and jumps allow for maximum functionality.

In Penta la rosetta scompare per creare una superficie, piatta e sinuosa, ad alto impatto scenografico. Salti e tagli obliqui seguono la massima funzionalità dell'impugnatura.

“Flat and sinuous, a handle where design is the undisputed protagonist.”

Icon

design by Forme

Solid and super compact, Icon hides the rosette under a rectangular design. A robust body that accentuates the momentum of the handle for a mature design. Suitable for various contexts.

Solida e super compatta, Icon è la maniglia che nasconde la rosetta sotto un design dal mood rettangolare. Un corpo robusto che accentua lo slancio dell'impugnatura per un design sobrio, adatto a vari contesti.

design by Forme

As with Icon, the rosette disappears to form a single body with the handle. For Icon Special the distinctive element is the insert, available in many different finishes for multiple combinations.

Come in Icon, la rosetta scompare per creare un corpo unico con l'impugnatura. In Icon Special l'elemento distintivo è l'inserto disponibile in tante finiture diverse per molteplici combinazioni.

Elle

design by Forme

Faithful to her name, Elle draws a letter L through a perfectly round design. 360 degree circular rosette.

Fedele al suo naming, Elle disegna una lettera "L" nello spazio attraverso una perfetta sezione tonda. Rotondità a 360 gradi anche grazie alla rosetta circolare.

“The spirit of a hand

Time

design by Forme

As the hand of a clock marks the time, this handle marks a certain elegance within its surroundings. For Time, different geometries meet in a single form.

Come la lancetta di un orologio, la maniglia scandisce l'ora di una funzionalità che vuole raccontare un'emozione. In Time, geometrie diverse si incontrano in una forma unica.

Moon

design by Śliwińska - Kęska

Sinuous, inviting, plastic shapes follow one another to make a clear, striking impression. Moon is a high-class construction handle with an organic horizontal handle.

Forme sinuose, avvolgenti, plastiche, si succedono nello spazio per stupire e lasciare il segno. Moon è una maniglia di alta classe costruttiva con una impugnatura orizzontale organica.

“A fluid and organic shape expressing continuous movement.”

Galaxy

design by Śliwińska - Kęska

An organic shape conquers the scene with a three-dimensional layout made up of solids, voids, and powerful flat lines as seen in the final handle. Galaxy expresses the idea of continuous movement.

Un fluido organico conquista la scena con un layout tridimensionale fatto di pieni, vuoti, linee voluminose e piatte come l'impugnatura finale. Galaxy è l'espressione di un continuo movimento.

Venus

design by Francesca Ciani

An inclined rectangular block rises from its square rosette, looking up towards the observer as if to declare its presence. Venus leaps into a new dimension.

Dalla rosetta quadrata si eleva un blocco rettangolare inclinato che guarda in alto verso l'osservatore come a comunicargli la sua presenza. Venus è un salto verso una nuova dimensione.

“An inclined plane that won't fail to catch the eye.”

Naxos

design by Francesca Ciani

A handle of pure design, with light and angled lines and a flat body. Contemporary and unique, Naxos gives its environment an ethereal charm.

Geometrie contemporanee ci regalano una maniglia di puro design con linee leggere e angolate in un corpo piatto. Naxos è l'innovazione che si è fatta forma per un ambiente dal fascino etereo.

“A flat body of angled lines with a contemporary look.”

Artemide

design by Francesca Ciani

Reminiscent of an hourglass's silhouette, Artemide brings together two symmetrical arches to give a striking visual impact. Vintage lines and references with an unmistakably innovative style.

Dall'impugnatura che ricorda la silhouette di una clessidra, Artemide disegna nello spazio due archi simmetrici ad alto impatto evocativo. Linee e rimandi vintage in un mood ultra innovativo.

Solis

design by Forme

Solis is new-generation simplicity. The round shape of the cylinder transforms into a flat rectangular body with soft corners, while maintaining a consistency of circularity.

Solis è sobrietà di nuova generazione. La forma rotonda del cilindro che si trasforma in un corpo piatto rettangolare dagli angoli morbidi mantenendo una coerenza di circolarità.

Alice

design by Forme

Alice represents the removal of anything superfluous, leaving an impressive, multi-faceted, futuristic handle.

Come il taglio di un coltello inciso sulla materia, in Alice il designer ha scavato il volume di una maniglia, togliendo via il superfluo. Le mille facce di una creazione che guarda al futuro.

Minerva

design by Kawajun

A strongly inclined square neck rises from the square rosette, giving the impression of the handle rotating on itself. With strong curved lines like a flowing river, Minerva is pure dynamism.

Dalla rosetta quadrata si erge un collo quadrato fortemente inclinato per imprimere l'idea di una maniglia che ruota su se stessa. Come un fiume che scorre, Minerva è puro dinamismo.

A recess in the neck of the article symbolises a hole being dug by an index finger. Removing unnecessary material in a curious, human way.

L'idea è quella di un dito indice che ha scavato con forza sottraendo del materiale dal collo della maniglia. Monza è intuito e solidità, in una forma assolutamente inedita.

Betty

design by Forme

Generous dimensions for a striking visual impact. Betty has a square rosette that matches a rectangular handle with rounded corners. A decisive design that communicates strength and stability.

Dimensioni generose per un impatto visivo dirompente. Betty ha una rosetta quadrata che si abbina a una impugnatura rettangolare con gli angoli smussati. Un design deciso che comunica forza e stabilità.

275

“Strength and stability delivered through a unique visual impact.”

Genova

design by Forme

Evoking the cliffs of the city of the lighthouse, the Genova has 3 purposefully broken lines. It is a polygonal design that conveys an idea of brilliant contemporaneity.

Il design evoca il profilo delle scogliere tipiche della città della lanterna con tre linee spezzate che si sviluppano nello spazio. Un design poligonale che restituisce un'idea di brillante contemporaneità.

“Polygonal design with 3 broken lines. Instant contemporaneity.”

Paola

design by Kawajun

The triangular handle is Paola's most interesting feature, with a final part that increasingly tapers in the search for maximum lightness. The flat surface amplifies its scenic impact and the innovative feel.

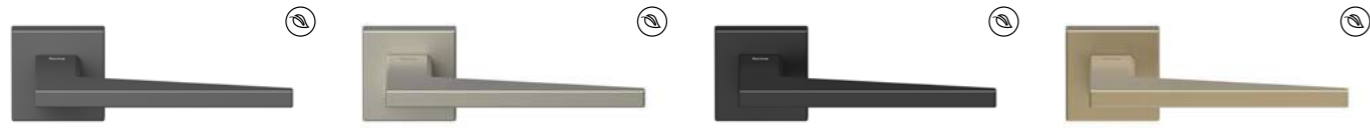

L'impugnatura triangolare è la caratteristica più interessante di Paola, con la parte finale che si assottiglia sempre di più cercando la massima leggerezza. La superficie piatta ne amplifica l'impatto scenico e il mood innovativo.

“A light yet powerful triangle suspended in space.”

Crystal

design by Forme

Sinuous yet solid, the Crystal handle is inspired by the many facets of a mineral surface. Light plays within the structure in a way that conveys purity and elegance on a tactile and aesthetic level.

Sinuosa e squadrata allo stesso tempo, la maniglia Crystal è ispirata alle diverse sfaccettature di una superficie minerale. Giochi di luce che trasmettono purezza ed eleganza a livello tattile ed estetico.

Foglia

design by Forme

The origin of this design was the attempt to evoke the shape of a leaf in a stylized, relevant way. The result is a handle which retains the charm of nature without sacrificing on functionality.

L'origine di questo design è il tentativo di evocare la forma di una foglia in una versione super stilizzata. Un esperimento riuscito che esprime tutto il valore di un fascino naturale racchiuso in una maniglia.

“The beauty of nature without compromises on functionality.”

Lorena

design by Forme

A flat, inclined and symmetrical handle rising from a pyramid-shaped neck. Lorena expresses a sophisticated, compact and strong design with conceptual energy.

Dal collo a piramide si erge una impugnatura piatta, inclinata e simmetrica. Lorena esprime un design sofisticato in grado di comunicare compattezza, forza ed energia concettuale.

295

“Total symmetry,
absolute elegance.”
